## Clash of clans ground attack strategy th10

August 18th, 2017 #1 Awkward Disclaimer: I am an average/below average attacker. What is the best TH11 ground attack to a maximum three-star TH10? I have failed the AQWalk + Bowler funnel several times (the army ran out of steam at the end). I have heroes almost max (20, 45, 40). I am currently only interested in the suggestion of a ground attack. Thank. August 18, 2017 #2 Alot will rely on basic forms making it difficult to provide one failed answer to the evidence. 3 first choice is bowlers walks hogs. I think you're on the right track with AQ running with gw support to clear as many bases as possible before the 2nd part hits. Assuming the hero is strong enough. Bowlers lose a lot of steam when held back by walls so it's possible at boxy bases trying to monopolize but AQwalk has to break base first. Clash Accounts IGN BUFFY Th11 maxed Viper Th9 maxedHAYDAY TAG #9QPJQUQQ8 August 18, 2017 #3 GoBoWitch should really ruin even a maximum of 10 2 golems, 8 witches, 12 Bowlers, some magicians and cc bowlers might break the wall if you need 2 rage 1 freeze 1 poison fill the rest with 4 eq 2 jumps or healing jumps depending on the base unless you funnel scene really it should dominate 10 with max 11 troops alternately AQ walk to GoBoWitch drop golem, 2 witches to 4 healers will be so devastating every First 10, a quick explanation of what clash of clans is and what the ultimate goal is. The game is based around building, and then protecting, a village and attacking other people's villages. As the game progressed - signalled by a higher-level Town Hall, the village centre - it became more difficult, more expensive, and longer. There are different types of defenses (from cannons to X-Bows), different types of troops (such as hog riders or Golems), different sets of heroes (unlocked at higher levels), and an assortment of other things you'll find as you progress. Gameplay is simple: you tend to your village (increase assets, for example), attack other bases, or engage in Clan Wars (more on that later). To speed up the increase and to buy more resources (which are broken down into gold, elixir, and dark elixir), Supercell offers gems that can be bought for real money (£3.99 gives you 500, and so on.) At the highest level, the increase can take up to two weeks. Share Th10 war GoWiBo (TH: 10, Trophies: 2000-4000)(Instruction)By:PpGooseTown Hall Level:10Trophy Level:2000-4000Introduction:GoWiBo is a very reliable 3-star town hall strategy, provided you have access to clan castle bowlers and siege machines (preferably the wall If you don't have access to any of them, it's a guaranteed 1 star. Army Composition:3 Golems, 10 Wizards, and 5 Bowlers. Your spells must be 2 Healing Spells, 2 Anger Spells, 1 Jump Spell, and Poison Spell (if the enemy has a clan castle on the defensive, otherwise then use the Frozen Spell). In your clan's castle, ask for 5 Bowlers (and 5 squad rooms whatever you want), Freeze spells, and Wall Wrecker.Execution:To Wrecker.Execution:To The attacks you have to start with a funnel consisting of Golem and 2 Witches on both sides where you attack. Once you get 6 troops down, you will place the remaining Golem, 6 Wizards, Barbarian King, Archer Queen, 5 Bowlers, and Wall Wrecker in the middle of your chosen side. From there, let your troops do the work and drop your Healing Spells to keep your bowler's murderous army alive, anger spells to speed up their time at the core (of which they tend to die the most), and Jump Spells to take them to places and not have them focus on the walls. To deal with defensive clan castles: When their Clan Castle approaches your troops, drop your Clan Castle Freezing + Your Poison into it and usually, allowing your troops to clean up the Clan Castle without taking much damage or losing too much time. Conclusion: Happy clashing, and if you want this video or image to work my tag is #2GVC8RVUR, just add me and ask to join my clan saying you want to talk to Derpus.
